Subject: Wahoo!

Loved it, loved it, loved it! We are all on the bus and suffering from withdrawals.... Thank you so much for your motivation and enthusiasm. The experience was life changing for us all. We were blessed from the moment we stepped off the bus and you greeted us! You are all very gifted at what you do and you give so generously to those around you - you must all be so proud of what you do - we were proud to be a part of it. Thank you. Please pass on my gratitude to Linda, John, Chef, and all the staff. I am so glad you made it back to see the kids one last time. You have given them a glimpse of the people that they are destined to be. We had a ball too!!! So sad to go... All the best, Until we meet again, The wayward teacher from St Josephs, (ie the one with the beret that manned up and did the tunnel and the mud!)

Amanda Norcott :-)
